To Whom It May Concern:

I oppose the Draft Memorandum being proposed by the FDA. In particular, I object to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

The only reason I can see for this to be considered by the FDA is to again promote more business for the large drug companies. I sincerely hope you don't go forward with this plan of restriction, because many people will call their legislators, the news media, or the President. These compounded prescriptions are medically necessary for many people.

Sincerely,

Shari Koelsch
